

PTE 高频写作33篇

2026年5月版本

【学员内部版】

核心逻辑框架

四段式结构：

1. 引题立论：提出现象 + 给出你的明确选择。
2. 正方论证：提出你的核心优点1 + 用个人经历详细证明。
3. 让步反驳：承认对方优点 + 转折反驳 + 提出你的核心优点2。
4. 总结重申：总结原因 + 重申你的选择。

第一段：重述背景与题目+表明观点

The controversial topic with respect to _____ never fails to attract public attention. (背景)

There has been a heated debate on whether _____. (题目)

As far as I am concerned, I tend to be the advocate/opponent regarding this issue.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that this is good(观点1)

This is because _____.(解释)

To illustrate this, my personal experience is a convincing example.

As a result, _____. (总结)

第三段：让步反驳段（反方观点+观点2/反驳）

In contrast, it is commonly believed as a fact that _____(反方观点)

Nevertheless, this argument does not hold water.

It should be pointed out that _____(观点2/反驳)

That is to say, _____.(解释2)

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that _____. (立场)

• with respect to sth B2

Introduction

The controversial topic with respect to ____ never fails to attract public attention. (背景)

There has been a heated debate on whether _____. (题目)

As far as I am concerned, I tend to be the advocate/opponent regarding this issue.

• tend to do sth B2

Core results:

- advocate verb C2
- advocate noun C2

• evidently adverb B2

Body1

It is evidently reasonable for me to believe that _____. (观点1)

This is because _____. (解释)

To illustrate this, my personal experience is a convincing example.

As a result, _____. (结果)

Body2

In contrast, it is commonly believed as a fact that _____. (反方观点)

Nevertheless, this argument does not hold water.

It should be pointed out that _____. (观点2)

That is to say, _____. (解释2)

that is (to say)
used to correct something you have said
Dictionary example:
Everybody was at the meeting, well ev
Learner example:
All in all, the students who participate

Conclusion

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that _____. (立场)

• in a nutshell C1

机经使用方法须知：

1. 本机经使用于目标50以上
2. 文章逻辑比表达难度重要
3. 鼓励同学自行降低表达和词汇难度
4. 范文难度适用写作85+

PTE 写作高频第1题

Living in the countryside or having an urban life, which one do you prefer? Please use examples or your personal experience to support your opinion.

城市还是乡村生活？

Living in the countryside or having an urban life, which one do you prefer? Please use examples or your personal experience to support your opinion.

城市还是乡村生活？

人生最优解：年轻时在城市“搞钱”和“充电”，积累资本与眼界；年长后在乡村“放电”和“养生”，享受时间与宁静。城市用密度兑换机会，乡村用空间兑换自由，这从来不是永久的选择，而是阶段的智慧。

第一段：重述背景与题目+表明观点

The controversial topic with respect to 选择居住地 never fails to attract public attention. (背景)

There has been a heated debate on whether 生活在乡村还是拥有都市生活更好. (题目)

As far as I am concerned, I tend to be the advocate of urban life regarding this issue.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that 都市生活提供了极大的便利和高效率.

This is because 城市提供了无缝衔接的交通、医疗和商业服务.

To illustrate this, my personal experience 在上海的生活 is a convincing example.

As a result, 城市生活的便利性节省了时间和精力，促成了一种更高效能的生活方式.

第三段：让步反驳段（反方观点+观点2）

In contrast, it is commonly believed as a fact that 乡村的自然环境能减轻压力并带来更可负担的生活成本.

Nevertheless, this argument does not hold water.

It should be pointed out that 城市为个人和职业成长提供了不可替代的优势，尤其对年轻人而言.

That is to say, 尽管乡村生活可能适合养老或短期放松，但都市中心对于实现长远目标仍然至关重要.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 都市生活因其便利性、职业机会和教育资源而更可取. (立场)

第一段：引题立论

- 1.现象句：The controversial topic with respect to where to live never fails to attract public attention.
- 2.题目句：There has been a heated debate on whether living in the countryside or having an urban life is more desirable.
- 3.立场句：As far as I am concerned, I tend to be the advocate for urban life.

第二段：正方论证（核心优点1：便利高效）

- 1.观点句：It is evidently reasonable to believe that urban life offers great convenience and high efficiency.
- 2.解释句：This is because cities provide seamless transportation, healthcare, and commercial services.
- 3.举例句：To illustrate, my personal experience in Shanghai is a convincing example.
- 4.总结句：As a result, the convenience of city life saves time and enables a more productive lifestyle.

第三段：让步反驳（核心优点2：发展机会）

- 1.让步句：In contrast, it is commonly believed that rural areas' natural environments reduce stress and living is more affordable.
- 2.反驳句：Nevertheless, this argument does not hold water for young people.
- 3.立论句：It should be pointed out that cities offer irreplaceable advantages for personal and professional growth.
- 4.解释句：That is to say, urban centers remain crucial for achieving long-term goals.

第四段：总结重申

- 1.结论句：In a nutshell, we may safely conclude that urban life is preferable for its convenience and opportunities.
- 2.平衡句：Although countryside living has its merits, the dynamic nature of cities better supports modern aspirations.

参考范文

The controversial topic with respect to choosing a place to live never fails to attract public attention. There has been a heated debate on whether living in the countryside or having an urban life is more desirable. As far as I am concerned, I tend to be the advocate for urban life.

It is evidently reasonable for me to believe that urban life offers residents great convenience and high efficiency. This is because cities provide seamless transportation, healthcare, and commercial services, significantly improving life efficiency. To illustrate this, my personal experience is a convincing example. When I lived in Shanghai, I could easily access hospitals, supermarkets, and public transit within minutes, allowing me to balance work, study, and leisure effortlessly. As a result, the convenience of city life saves time and energy, enabling a more productive lifestyle.

In contrast, it is commonly believed as a fact that rural areas' natural environments reduce stress and promote long-term well-being, and rural living is more affordable. Nevertheless, this argument does not hold water in the context of modern life. It should be pointed out that cities offer irreplaceable advantages for personal and professional growth, especially for young people. That is to say, while rural life may suit retirement or short-term relaxation, urban centers remain crucial for achieving long-term goals.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that urban life is preferable for its convenience, career opportunities, and educational resources. Although countryside living has its merits, the dynamic and efficient nature of cities better supports modern aspirations and daily needs.

263 Words

PTE 写作高频第2题

The mass media (mass communication) including TV, Radio and newspaper influence our society and shape our opinions and characters. What is your opinion?

Information revolution has changed the way of mass communications and had some negative and positive effects on individual lives as well as on society. To what extent do you agree or disagree?

Whether mass media including TV, Radio and newspaper will influence our society and shape our opinions and characters?

Nowadays the way people communicate with each other has changed in society. Discuss its positive and negative effects. Whether the new method of communication has more positive effects.

大众传媒对于个人与社会的影响

The mass media (mass communication) including TV, Radio and newspaper influence our society and shape our opinions and characters. What is your opinion?

大众媒体的影响与争议分析

媒体就像一个我们离不开的“信息超市”：虽然有少量过期或不健康的食品（错误信息/负面内容），但只要我们自己会挑（提高判断力）、超市管理严（媒体负责），我们就能天天买到最新鲜的果蔬和最有营养的食物（及时信息/知识教育），让全家人吃得更好、更健康。

第一段：重述背景与题目+表明观点

The controversial topic with respect to 大众媒体的影响 never fails to attract public attention.
There has been a heated debate on whether 大众媒体对社会和个人性格的影响主要是积极的.
As far as I am concerned, I tend to be the advocate 支持大众媒体的积极作用 regarding this issue.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that 大众媒体是现代社会中不可或缺的信息桥梁.
This is because 它提供及时的新闻、多元的视角和有价值的教育内容.
To illustrate this, my personal experience 在疫情期间通过媒体获取信息 is a convincing example.
As a result, 大众媒体不仅为我提供了决策依据, 还在关键时刻缓解了不必要的焦虑.

第三段：让步反驳段

In contrast, it is commonly believed as a fact that 大众媒体有时传播错误信息和负面价值观.
Nevertheless, this argument does not hold water.
It should be pointed out that 负责任的媒体机构和批判性的受众参与可以最大化益处.
That is to say, 尽管媒体有潜在缺点, 但它在传播知识方面的作用仍然是积极的.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 大众媒体在塑造知情社会方面发挥着关键作用.

参考范文

The controversial topic with respect to the influence of mass media never fails to attract public attention. There has been a heated debate on whether mass media, including television, radio, and newspapers, positively shapes our society and character. As far as I am concerned, I tend to be the advocate regarding the positive influence of mass media.

It is evidently reasonable for me to believe that mass media serves as an essential information bridge in modern society. This is because it provides timely news, diverse views, and useful educational content that keep the public informed and connected. To illustrate this, my personal experience during the pandemic is a convincing example. Through watching trustworthy news reports and educational programs, I gained important health knowledge and understood global efforts to fight the virus. As a result, mass media not only informed my decisions but also reduced unnecessary anxiety during a difficult time.

In contrast, it is commonly believed as a fact that mass media occasionally spreads misinformation and promotes detrimental values, which could potentially undermine social cohesion and misguide the public. Nevertheless, this argument does not hold water. It should be pointed out that responsible media entities and thoughtful public participation can increase the benefits while reducing the risks. That is to say, while acknowledging that media has possible weak points, its role in sharing knowledge, supporting public discussion, and helping create well-informed citizens stays mainly positive.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that mass media, when used carefully and responsibly, plays a key role in shaping a well-informed, connected, and developing society.

269 words

PTE 写作高频第3题

Should marketing for consumer goods companies like clothing and food focus on reputation or on short term strategies like discount and special offers? Why?

消费品（服装/食品）营销应注重品牌声誉还是短期促销？

Should marketing for consumer goods companies like clothing and food focus on reputation or on short term strategies like discount and special offers? Why?

消费品（服装/食品）营销应注重品牌声誉还是短期促销？

折扣是能快速充饥的“快餐”，但品牌声誉才是让顾客不断回头的“家宴”口碑；聪明的企业会用“快餐”引流，但永远在用心经营那桌“家宴”。

第一段：重述背景与题目+表明观点

The controversial topic with respect to 企业营销策略 never fails to attract public attention.

There has been a heated debate on whether 消费品公司应优先建立稳固声誉还是采用折扣等短期策略.

As far as I am concerned, I tend to be the advocate 支持以建立声誉为核心的方法.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that 强大的品牌声誉是可持续成功的基石.

This is because 建立在质量和信任上的声誉能培养坚定的客户忠诚度.

To illustrate this, my personal experience 作为一名消费者的经历 is a convincing example.

我始终坚持选择某一酸奶品牌，并非因其偶尔促销，而是因为我完全信赖其多年可靠体验带来的品质与安全.

As a result, 这种情感纽带使我无视竞争对手的短暂折扣，直接为公司带来了终身价值.

第三段：让步反驳段

In contrast, it is commonly believed as a fact that 激进的折扣和特价能快速提升销量、清理库存，带来即时财务缓解.

Nevertheless, this argument does not hold water.

It should be pointed out that 过度依赖价格战会侵蚀品牌价值，培养顾客只在促销时购买的习惯，最终损害利润.

That is to say, 虽然短期策略可作为有用的战术工具，但它们无法替代可信声誉这一战略资产.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 消费品公司应明确专注于培育卓越声誉.

参考范文

The controversial topic with respect to corporate marketing strategies never fails to attract public attention. There has been a heated debate on whether consumer goods companies should prioritise building a solid reputation or employing short-term strategy like discounts. As far as I am concerned, I tend to be the advocate for a reputation-focused approach.

It is evidently reasonable for me to believe that a strong brand reputation is the foundation for sustainable success. This is because reputation, built on quality and trust, creates strong customer loyalty, which ensures stable sales and allows for premium pricing over time. To illustrate this, my personal experience as a consumer is a convincing example. I consistently choose a certain yogurt brand, not because of its occasional promotions, but because I trust its quality and safety from years of reliable experience. As a result, this emotional bond makes me ignore competitors' fleeting discounts.

In contrast, it is commonly believed as a fact that aggressive discounts and special offers can quickly boost sales volumes and clear inventory, providing immediate financial relief. Nevertheless, this argument does not hold water in the long run. It should be pointed out that over-reliance on price wars damages brand value, trains customers to buy only on sale, and ultimately harms profitability. That is to say, while short-term strategies can be useful practical tools, they are a poor substitute for the strategic asset of a trusted reputation.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that consumer goods companies should clearly focus on cultivating an excellent reputation.

261 words

PTE 写作高频第4题

Whether studying films at school is as important as studying literature?

Do you think school should have curriculum asking students to play old drama and work for theatre centuries ago?

There are both problems and benefits for high school students study plays and works of theatres written centuries ago. Discuss and use your own experience

学习电影与文学的对比

Whether studying films at school is as important as studying literature?

Do you think school should have curriculum asking students to play old drama and work for theatre centuries ago?

There are both problems and benefits for high school students study plays and works of theatres written centuries ago. Discuss and use your own experience

学习电影与文学的对比

古典戏剧好比一扇需要耐心开启的历史之窗——起初费力，但推开后便能望见跨越时空的人性风景与智慧底蕴。

第一段：重述背景与题目+表明观点

The controversial topic with respect to 在教育中纳入古典戏剧 never fails to attract public attention.
There has been a heated debate on whether 学校应该要求学生接触有数百年历史的戏剧作品.
As far as I am concerned, I tend to be an advocate for 这一做法 regarding this issue.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that 学习这些作品具有独特的价值.
This is because 它们能让人直接洞察历史文化、普遍的人类情感和复杂的语言，从而培养批判性思维.
To illustrate this, my personal experience 学习莎士比亚作品的经历 is a convincing example.
在课堂上讨论其剧中人物的动机，显著提升了我的共情能力.
As a result, 这种与过去的对话被证明是理解人性的深刻且有意义的过程.

第三段：让步反驳段

In contrast, it is commonly believed as a fact that 这类古老的文本对现代学生来说既无关紧要又枯燥乏味，可能损害他们对文学的兴趣.
Nevertheless, this argument does not hold water.
It should be pointed out that 创新的教学方法，例如将古老戏剧改编为现代故事或让学生参与表演，能够成功弥合历史的鸿沟.
That is to say, 尽管最初的困难是真实存在的，但这恰恰是培养决心和深化文化欣赏能力的宝贵挑战.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 学习古典戏剧利大于弊.
Although 它需要深思熟虑的教学来克服障碍，其在发展学生智识与情感深度方面的作用，在全面的教育中是无可替代的.

参考范文

The controversial topic with respect to including classical theatre in education never fails to attract public attention. There has been a heated debate on whether schools should require students to engage with centuries-old plays. As far as I am concerned, I tend to be an advocate for this practice, despite acknowledging its challenges.

It is evidently reasonable for me to believe that studying these works offers unique value. This is because they provide direct insight into historical cultures, universal human emotions, and complex language, fostering critical thinking. To illustrate this, my personal experience is a convincing example. When studying Shakespeare, discussing its characters' motives in class significantly improved my ability to understand others' feelings. As a result, this engagement with the past proved to be a deep and meaningful exercise in understanding human nature.

In contrast, it is commonly believed as a fact that such old texts are irrelevant and boring for modern students, potentially harming their interest in literature. Nevertheless, this argument does not hold water with effective teaching methods. It should be pointed out that creative approaches, such as turning old plays into modern stories or having students act them out, can successfully bridge the historical gap. That is to say, while the initial difficulty is real, it is a valuable challenge that teaches determination and deep cultural appreciation.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that the benefits of studying classical theatre outweigh its problems. Although it requires thoughtful teaching to overcome barriers, its role in developing intellectual and emotional depth is irreplaceable in a well-rounded education.

267 words

PTE 写作高频第5题

Some famous people such as pop-stars and sportsman give up the right to privacy, because this is the price of fame. To what extent do you agree/disagree with this point of view? Give your opinion with your experiences.

成名的代价就是要失去自由吗？

Some famous people such as pop-stars and sportsman give up the right to privacy, because this is the price of fame. To what extent do you agree/disagree with this point of view? Give your opinion with your experiences.

成名的代价就是要失去自由吗？

名人的隐私权不是名人“薪资套餐”里的默认扣款项，公众的“好奇心”也不能自动兑换成无限度的“窥探许可证”；在闪光灯照不到的地方，理应存在一片受法律庇护的私人阴影。

第一段：重述背景与题目+表明观点

The controversial topic with respect to 名人隐私 never fails to attract public attention.
There has been a heated debate on whether 名声理应以牺牲私人生活权利为代价.
As far as I am concerned, I disagree with the view that 名人必须完全放弃这项权利.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that 每个人都应享有基本的隐私权.
This is because 隐私保护心理健康、人身安全与家庭生活，这些是人的基本需求.
To illustrate this, my personal observation 对一位知名女演员的观察 is a convincing example.
她所面临的持续狗仔队骚扰，给她和年幼的孩子带来了巨大的痛苦.
As a result, 将隐私视为可买卖的商品会导致真实的伤害.

第三段：让步反驳段

In contrast, it is commonly believed as a fact that 成名是一种选择，公众关注是明星和运动员职业生涯中不可避免的一部分.
Nevertheless, this argument does not hold water.
It should be pointed out that 公众对某人工作的兴趣与侵入其纯粹私人、非工作时刻之间存在明确界限.
That is to say, 虽然部分隐私的丧失不可避免，但这应被限制，不应延伸到彻底丧失基本个人边界.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 名声不应要求完全放弃隐私.

参考范文

The controversial topic with respect to celebrities' privacy never fails to attract public attention. There has been a heated debate on whether fame should naturally cost individuals their right to a private life. As far as I am concerned, I disagree with the view that famous people must completely give up this right.

It is evidently reasonable for me to believe that everyone, regardless of fame, deserves a fundamental level of privacy. This is because the core of privacy protects mental well-being, personal safety, and family life, which are essential human needs. To illustrate this, my personal observation is a convincing example. The constant paparazzi harassment faced by a well-known actress in my country led to significant personal distress for her and her young child. As a result, treating privacy as something that can be bought and sold can lead to real harm.

In contrast, it is commonly believed as a fact that fame is a choice, and attention from the public is an unavoidable part of the career package for stars and athletes. Nevertheless, this argument does not hold water when pushed to extremes. It should be pointed out that there is a clear line between public interest in one's work and unwanted entry into purely personal moments. That is to say, while some loss of privacy cannot be avoided, it should be limited and not extend to a complete loss of basic personal boundaries.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that fame should not require the complete giving up of privacy.

262 Words

PTE 写作高频第6题

In modern society, unemployment among young people is a serious problem. One solution is to shorten the working week. Give your opinion of the idea, considering the advantages and disadvantages, whether it can apply to young people or the whole workforce.

"In the future, people will work less hours at their jobs." To what extent do you agree with it? Please support your opinion with your own experience

缩短工作时间来应对青年失业

In modern society, unemployment among young people is a serious problem. One solution is to shorten the working week. Give your opinion of the idea, considering the advantages and disadvantages, whether it can apply to young people or the whole workforce.

"In the future, people will work less hours at their jobs." To what extent do you agree with it? Please support your opinion with your own experience

缩短工作时间来应对青年失业

缩短工时是未来理想的工作趋势，它像一把能开启“工作分享”与“生活平衡”两扇门的钥匙；尽管这把钥匙无法打开所有行业的大门，且需要精细打磨，但它无疑引领我们走向一个更人性化、更看重时间价值的进步社会。

第一段：重述背景与题目+表明观点

The controversial topic with respect to 未来工作模式 never fails to attract public attention.

There has been a heated debate on whether 缩短工作周是一个可行的解决方案.

As far as I am concerned, I agree with this prospect 在很大程度上, though it requires careful implementation.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that 减少工作时间可以带来显著的益处.

This is because 它创造了工作共享的机会, 有可能吸收更多年轻人进入劳动力市场, 同时促进更好的工作与生活平衡.

To illustrate this, my personal experience 参与四天工作制试点的经历 is a convincing example.

我观察到生产效率得以维持, 并且我个人有了更多时间用于个人发展.

As a result, 这一模式证明了福祉与效率是可以共存的.

第三段：让步反驳段

In contrast, it is commonly believed as a fact that 全面减少工时可能会增加企业成本压力, 并且难以适用于需要直接服务客户的岗位.

Nevertheless, this argument does not hold water if we consider 针对不同行业制定分步计划, 而非一刀切的规则.

It should be pointed out that 最主要的受益者可能是拥有固定薪水的办公室职员, while 这对于轮班制员工是否可行则不太明确.

That is to say, 尽管这一趋势是积极的, 但其实施必须根据不同行业进行调整.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 减少工作时间是一个理想的未来趋势.

Although 它并非解决所有就业问题的完整方案, 重视时间与福祉代表了现代社会的进步.

参考范文

The controversial topic with respect to future working patterns never fails to attract public attention. There has been a heated debate on whether shortening the workweek is a viable solution. As far as I am concerned, I agree with this prospect to a large extent, though it requires careful implementation.

It is evidently reasonable for me to believe that reducing working hours can bring significant benefits. This is because it creates opportunities for job-sharing, potentially absorbing more young people into the workforce while promoting better work-life balance. To illustrate this, my personal experience is a convincing example. During a trial of a four-day workweek, I observed maintained productivity, and I had more time for personal development. As a result, this model demonstrated that well-being and efficiency can coexist.

In contrast, it is commonly believed as a fact that a general reduction could increase pressure on business costs and is hard to apply for jobs that need to serve customers directly. Nevertheless, this argument does not hold water if we consider step-by-step plans for different industries, not one rule for all. It should be pointed out that people who benefit most might be office workers with a fixed salary, while whether it works for shift workers is less clear. That is to say, while the trend is positive, its application must be adapted across different sectors.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that working fewer hours is a desirable future trend. Although not a complete solution for all employment issues, valuing time and well-being represents progress for modern society.

266 words

PTE 写作高频第7题

It is important to preserve beautiful buildings from the past, even it is expensive for owner to do so. Agree or Disagree?

Governments spend much money on preserving beautiful old buildings rather than building modern buildings. Agree or Disagree?

More and more countries spend large amounts of money on the restoration of buildings instead of on modern housing. To what extent do you agree or disagree with this analysis? Support your writing with your experience and/or examples.

历史建筑的保护

It is important to preserve beautiful buildings from the past, even it is expensive for owner to do so. Agree or Disagree?

Governments spend much money on preserving beautiful old buildings rather than building modern buildings. Agree or Disagree?

More and more countries spend large amounts of money on the restoration of buildings instead of on modern housing. To what extent do you agree or disagree with this analysis? Support your writing with your experience and/or examples.

历史建筑的保护

保护古建筑，不仅是为城市留下有形的“历史相册”，更是在千城一面的未来中，为我们的精神世界保留一块无可替代的“文化自留地”。

第一段：重述背景与题目+表明观点

The controversial topic with respect to 保护古建筑 never fails to attract public attention.
There has been a heated debate on whether 政府资金应当优先用于历史修复而非现代建设.
As far as I am concerned, I tend to be the advocate 支持这种保护 regarding this issue.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that 保护建筑遗产是重要的.
This is because 它维系着一座城市的独特风貌，并成为所有市民与其历史之间的直接纽带.
To illustrate this, my personal experience 亲眼目睹一家老剧院的变迁 is a convincing example.
我见证了社区里一家老剧院经过精心修复，从一栋被遗弃的建筑变成了一个充满活力的艺术中心.
As a result, 此举并未抹去过去，而是让历史重获新生，使其成为当地自豪感与经济活力的源泉，惠及众人.

第三段：让步反驳段

In contrast, it is commonly believed as a fact that 此类支出是浪费钱财，本应用于解决紧迫的住房短缺问题.
Nevertheless, this argument does not hold water.
It should be pointed out that 城市发展不必非要在新旧之间做出选择；周密的规划可以将二者融合.
That is to say, 一座城市可以在满足现代需求的同时，依然珍视那些述说其故事的标志性建筑，从而避免所有地方在未来都千篇一律.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that

对重要的古建筑进行保护性投资，对于任何珍视自身身份与未来文化厚度的社会而言，都是一项明智且必要的政策.

参考范文

The controversial topic with respect to preserving old buildings never fails to attract public attention. There has been a heated debate on whether government funding should prioritize historical restoration over modern construction. As far as I am concerned, I tend to be the advocate for this preservation.

It is evidently reasonable for me to believe that protecting architectural heritage is important. This is because it maintains a city's unique character and serves as a direct connection to its history for all citizens. To illustrate this, my personal experience is a convincing example. I have seen how the careful restoration of an old theater in my neighborhood turned an abandoned building into a lively arts center. As a result, it did not erase the past but brought it back to life, becoming a source of local pride and economic activity that benefits everyone.

In contrast, it is commonly believed as a fact that such spending is a waste of money that should go towards solving urgent housing shortages. Nevertheless, this argument does not hold water. It should be pointed out that urban development need not be a choice between old and new; thoughtful planning can integrate both. That is to say, a city can meet modern needs while still cherishing the landmarks that tell its story, avoiding a future where every place looks the same.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that investing in the preservation of significant old buildings is a wise and necessary policy for any society that values its identity and future richness.

263 words

PTE 写作高频第8题

Should we have a maximum wage for the high-paid jobs?

高收入职业需要设置上限吗？

Should we have a maximum wage for the high-paid jobs?

高收入职业需要设置上限吗？

为高薪设定法律上限，如同为河流筑起堤坝试图平息洪水——它可能暂时阻挡水流，却最终会迫使活水改道、滋养他处，甚至让整片土地失去生机；治理贫富差距的智慧，不在于截断创造的源头，而在于更合理地疏导与分享其带来的丰沛滋养。

第一段：重述背景与题目+表明观点

The controversial topic with respect to 收入不平等 never fails to attract public attention.

There has been a heated debate on whether 应为高收入工作设定最高工资上限.

As far as I am concerned, I tend to be the 反对 regarding this issue.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that 设定强制性的最高工资是有害的.

This is because 它会削弱人们创新、创业和追求卓越的根本动力.

To illustrate this, 科技行业 serves as a convincing example.

其快速发展很大程度上源于获得高额回报的可能性；人为限制这种可能性可能会扼杀雄心，并驱使人才流向其他地方.

As a result, 这样的政策可能会阻碍整体经济的活力与发展.

第三段：让步反驳段

In contrast, it is commonly believed as a fact that 最高工资是控制极端不平等所必需的.

Nevertheless, this argument does not hold water.

It should be pointed out that 存在更好、危害更小的方法，例如让富人缴纳更多税的税制，以及对社会需求的强力投入.

That is to say, 更公平社会的目标，通过财富创造后进行明智分配来实现会更好，而不是简单地人为设定一个收入上限.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 立法设定最高工资并非良策.

解决财富差距需要审慎的财政与社会政策，而不是可能损害国家繁荣源泉的、简单的限制措施.

参考范文

The controversial topic with respect to income inequality never fails to attract public attention. There has been a heated debate on whether a maximum wage should be set for high-income jobs. As far as I am concerned, I tend to be the opponent of this measure.

It is evidently reasonable for me to believe that a required highest salary is not helpful. This is because it would weaken the basic reason for people to create new things, start businesses, and try to be the best in their jobs. To illustrate this, the technology sector serves as a convincing example. Its fast growth gets much of its energy from the chance to earn a lot of money; putting a man-made limit on this chance would likely stop big dreams and make skilled people go to other places. As a result, such a policy could slow down the whole economy's energy and development.

In contrast, it is commonly believed that a maximum wage is needed to control extreme inequality. Nevertheless, this argument does not hold water. It should be pointed out that better and less harmful methods exist, such as tax systems where the rich pay more and strong spending on society's needs. That is to say, the goal of a fairer society is better reached by wisely sharing wealth after it is made, rather than by simply deciding on a limit for how much can be made.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that a law-based maximum wage is not a good answer. Solving the wealth gap needs careful money and social rules, not easy limits that might hurt what makes a country rich.

PTE 写作高频第9题

In some companies, employers take workers' opinions into consideration of products and services. Discuss the advantages and disadvantages.

Company's top-level authorities should involve their employees in decision-making process. Discuss

讨论员工参与产品服务决策的利弊。

In some companies, employers take workers' opinions into consideration of products and services. Discuss the advantages and disadvantages.

讨论员工参与产品服务决策的利弊。

让一线员工的声音进入决策层，如同为产品开发安装了一个永不掉线的“真人测试系统”——它或许会偶尔发出嘈杂的“报错提示”，但远比管理层在封闭会议室里对着PPT凭空想象来得真实可靠；聪明的公司会把这种“噪音”转化为产品迭代最精准的导航信号。

第一段：重述背景与题目+表明观点

The controversial topic with respect to 员工参与公司决策 never fails to attract public attention. There has been a heated debate on whether 企业应该在产品与服务的设计中采纳员工的意见. As far as I am concerned, I strongly support 这一做法.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that 这种方法是非常有益的.
This is because 直接服务客户的员工具备关于日常运营和用户需求的实用知识.
To illustrate this, my personal experience 在一家零售公司的经历 is a convincing example.
当采纳收银员优化结账流程的建议后, 客户满意度和工作效率都得到了提升.
As a result, 这种让全员参与的策略直接提升了服务质量, 并创造了真实的商业优势.

第三段：让步反驳段

In contrast, it is commonly believed as a fact that 征求过多意见会拖慢决策并引发冲突.
Nevertheless, this argument does not hold water.
It should be pointed out that 问题的根源不在于征询意见本身, 而在于其执行方式.
That is to say, 虽然风险确实存在, 但可以通过建立清晰的流程来有效收集和利用员工反馈, 从而管理这些风险.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 倾听员工意见对企业的成功至关重要.
Although 它需要细致的执行, 其为创新和士气带来的益处远超潜在风险.

参考范文

The controversial topic with respect to employee involvement in decision-making never fails to attract public attention. There has been a heated debate on whether companies should consider workers' opinions on products and services. As far as I am concerned, I strongly support this practice.

It is evidently reasonable for me to believe that this approach is highly beneficial. This is because employees who work directly with customers have practical, everyday knowledge of operations and user needs. To illustrate this, my experience in a retail company is a convincing example. When cashiers' suggestions for improving checkout were adopted, both customer satisfaction and work efficiency increased. As a result, this strategy of involving everyone directly improved service quality and created a real business advantage.

In contrast, it is commonly believed that seeking many opinions can slow decisions and cause conflict. Nevertheless, this argument does not hold water with proper management. It should be pointed out that the problem is not caused by asking for opinions, but by how it is done. That is to say, while risks exist, they can be managed through clear processes for gathering and using employee feedback effectively.

In a nutshell, we may safely conclude that listening to employees is crucial for business success. Although it needs careful implementation, the benefits for innovation far outweigh the risks.

PTE 写作高频第10题

Nowadays TV has become an essential part of life. It is a medium to spread news & awareness and for some it acts like a companion. What is your opinion about this?

不可缺少的电视

Nowadays TV has become an essential part of life. It is a medium to spread news & awareness and for some it acts like a companion. What is your opinion about this?

不可缺少的电视

电视是一扇需要亲手调节的“世界之窗”——它可以呈现精心校准的真实与启迪，也可能折射出使人沉溺的虚光；最终决定我们视野广度与深度的，不是窗子本身，而是我们选择打开它的方式与时长。

第一段：重述背景与题目+表明观点

The controversial topic with respect to 电视在现代社会中的角色 never fails to attract public attention.

There has been a heated debate on whether 电视的广泛普及总体上是利大于弊.

As far as I am concerned, I tend to be the advocate 支持其积极作用 regarding this issue.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that 电视带来了显著的益处.

This is because 它能有效地传播及时新闻、提升公众意识，并向广大观众提供教育内容.

To illustrate this, my personal experience 在重大国际事件期间观看电视新闻的经历 is a convincing example.

观看可信新闻网络的直播，为我提供了理解复杂局势所必需的即时、清晰信息.

As a result, 电视被证明是促进公共参与和提供知情陪伴的重要工具.

第三段：让步反驳段

In contrast, it is commonly believed as a fact that 电视助长懒惰与孤立的生活方式，因其鼓励被动消费.

Nevertheless, this argument does not hold water.

It should be pointed out that 这种结果源于观看习惯，而非媒介本身.

That is to say, 只要有意识地选择内容和保持平衡的观看习惯，其告知和连接社会的强大能力就能得到充分发挥.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 电视在很大程度上保持着积极的地位.

它在分享知识和促进共同体验方面的深刻用处，确保了其在现代生活中不可或缺的价值.

参考范文

The controversial topic with respect to television's role never fails to attract public attention. There has been a heated debate on whether its widespread use is beneficial. As far as I am concerned, I tend to be the advocate.

It is evidently reasonable to believe that television provides significant benefits. This is because it effectively spreads timely news, raises public awareness, and delivers educational content to a wide audience. To illustrate this, my personal experience during global events is convincing. Watching live broadcasts from trusted news networks provided me with immediate, clear information that was vital for understanding complex situations. As a result, television proved to be a very important tool for public participation and a source of informed companionship.

In contrast, it is commonly believed that TV encourages a lazy and isolated lifestyle by promoting passive consumption. Nevertheless, this argument does not hold water. It should be pointed out that such results come from viewing habits, not from the medium itself. That is to say, with conscious content selection and balanced habits, its great ability to inform and connect society can be fully realized.

In a nutshell, we may conclude that television maintains a largely positive status. Its deep usefulness in sharing knowledge and encouraging shared experience secures its valuable place in modern life.

PTE 写作高频第11题

综合问题

How widely of you think the problem spreads that people spend too much time on work than their personal life and experience time shortage? What problems will it cause?

类似题目1: It is important to maintain the balance between work and other aspect of person's life such as family and leisure time, agree or disagree? Why it is hard to achieve?

工作和生活无法平衡 原因+后果+解决方法

How widely of you think the problem spreads that people spend too much time on work than their personal life and experience time shortage? What problems will it cause?

类似题目1: It is important to maintain the balance between work and other aspect of person's life such as family and leisure time, agree or disagree? Why it is hard to achieve?

工作和生活无法平衡 原因+后果+解决方法

追求工作与生活的平衡，不是在效率与幸福之间做非此即彼的选择，而是认识到：可持续的个人幸福，本身就是最高效、最长远的“生产力”。

第一段：重述背景与题目+表明观点

The controversial topic with respect to 工作与生活的平衡 never fails to attract public attention.

There has been a heated debate on whether 普遍存在的失衡是一个严重的社会问题.

As far as I am concerned, I tend to be the strong advocate 认为此问题严重且急需关注.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that 过长的工作时间是有害的.

This is because 它们直接损害身心健康、破坏家庭关系并降低整体生活满意度.

To illustrate this, my personal observation 在之前公司的观察 is a convincing example.

长期加班的同事报告了持续的疲惫感、受损的家庭关系以及创造力的丧失.

As a result, 公司面临了更高的人员流失率和更低的团队士气, 这证明过度工作最终损害个人与组织双方.

第三段：让步反驳段

In contrast, it is commonly believed as a fact that 长时间工作是职业成功和经济增长所必需的.

Nevertheless, this argument does not hold water.

It should be pointed out that 持续的时间匮乏感会导致倦怠, 降低长期生产力, 并造就一个人们无暇顾及社区或个人成长的社会.

That is to say, 虽然短期的努力冲刺可能有用, 但一种持续过度工作的文化是无益的, 且对经济和社会健康都不可持续.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 工作与生活失衡是一个普遍且有害的问题.

由于竞争激烈的职场文化和经济压力, 实现平衡固然困难, 但它对于构建一个健康、可持续且真正高效的社会至关重要.

参考范文

The controversial topic with respect to work-life balance never fails to attract public attention. There has been a heated debate on whether the widespread imbalance is a serious social issue. As far as I am concerned, I tend to be the strong advocate that this problem is severe and requires immediate attention.

It is evidently reasonable for me to believe that excessive work hours are harmful. This is because they directly harm physical and mental health, damage family relationships, and lower overall life satisfaction. To illustrate this, my personal observation is a convincing example. Colleagues who consistently worked late reported constant tiredness, damaged family relationships, and lost creativity. As a result, the company faced higher staff turnover and lower team morale, proving that overwork ultimately hurts both individuals and organisations.

In contrast, it is commonly believed as a fact that long working hours are necessary for career success and economic growth. Nevertheless, this argument does not hold water. It should be pointed out that the constant feeling of not having enough time leads to burnout, reduces long-term productivity, and creates a society where people have no energy for community or personal growth. That is to say, while short bursts of effort can be useful, a culture of sustained overwork is not helpful and cannot continue for both economic and social health.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that work-life imbalance is a common and damaging problem. Achieving balance is difficult due to competitive workplace cultures and economic pressures, but it is essential for building a healthy, sustainable, and truly productive society.

269 words

PTE 写作高频第12题

In the past 100 years, there are many inventions such as antibiotics, airplanes and computer. What do you think is the most important invention for the past 100 years? Why?

最伟大的发明

In the past 100 years, there are many inventions such as antibiotics, airplanes and computer. What do you think is the most important invention for the past 100 years? Why?

最伟大的发明

互联网如同为世界安装了一个即时更新的“全球操作系统”，它不仅重新定义了距离与知识，更成为孵化所有现代创新的基础平台——其他伟大发明解决的是具体问题，而互联网解决的是“如何更高效地解决一切问题”的问题。

第一段：重述背景与题目+表明观点

The controversial topic with respect to 最具影响力的现代发明 never fails to attract public attention.

There has been a heated debate on which 突破性发明最深刻地塑造了我们的世界.

As far as I am concerned, I tend to be the strong advocate 认为互联网是过去一个世纪最重要的发明.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that 互联网是最重要的发明.

This is because 它彻底改变了全球人类生活的方方面面，使时间和距离不再是障碍.

To illustrate this, my personal experience 求学时期的经历 is a convincing example.

大量学术资料得以在线即时获取，使我能在几小时内完成以往需在图书馆耗费数周的研究.

As a result, 互联网不仅普及了知识获取，更创造了一个始终互联的世界.

第三段：让步反驳段

In contrast, it is commonly believed as a fact that 抗生素或飞机等其他发明具有更直接、真实的救生或物理世界效应.

Nevertheless, this argument does not hold water.

It should be pointed out that 当我们考量规模和整合性时，互联网优化并加速了一切，推动了医学、物流及科学本身的新思想更快诞生.

That is to say, 互联网作为一个基础，几乎使所有其他现代发明都变得更实用、更强大.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 互联网是改变世界最多的发明.

参考范文

The controversial topic with respect to the most impactful modern invention never fails to attract public attention. There has been a heated debate on which breakthrough has most profoundly shaped our world. As far as I am concerned, I tend to be the strong advocate for the internet as the most important invention of the past century.

It is evidently reasonable for me to believe that the internet is the most important invention. This is because it has completely changed almost every part of human life all over the world, making time and distance less of a problem. To illustrate this, my personal experience is a convincing example. During my studies, a huge amount of academic material became available online right away, allowing me to do research in hours that would have taken weeks in a library. As a result, the internet has made knowledge available to everyone and creating a world that is always connected.

In contrast, it is commonly believed as a fact that other inventions like antibiotics or the airplane have had more direct and real life-saving or physical-world effects. Nevertheless, this argument does not hold water when we think about scale and integration. It should be pointed out that the internet makes everything else work better and faster, helping new ideas in medicine, logistics, and science itself happen more quickly. That is to say, the internet is a base that makes almost every other modern invention more useful and powerful.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that the internet is the invention that has changed our world the most.

271 words

PTE 写作高频第13题

Some people believe that human behaviour can be changed by laws; others argue that laws have little effect on human behaviour. Which opinion do you agree with? Please explain.

法律是否可以影响人的行为

Some people believe that human behaviour can be changed by laws; others argue that laws have little effect on human behaviour. Which opinion do you agree with? Please explain.

法律是否可以影响人的行为

法律是社会运行的“有形之手”，它或许不能瞬间改变人心，却能通过设定清晰的边界与代价，系统性地引导公众行为、塑造社会习惯，最终将外在的强制规则内化为普遍的集体自觉。

第一段：重述背景与题目+表明观点

The controversial topic with respect to 法律的影响力 never fails to attract public attention.

There has been a heated debate on whether 法律能够改变人的行为.

As far as I am concerned, I tend to be the advocate 支持法律具有重要作用.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that 法律善于引导行为.

This is because 它们设立了清晰的规则与后果，并随着时间推移塑造社会规范.

To illustrate this, my personal observation 关于公共场所禁烟的观察 is a convincing example.

在严格的法规出台后，我所在城市的室内吸烟现象在几年内几乎绝迹.

As a result, 一项法律条文演变为一种社会规范，这展现了法律如何能够重塑公众行为.

第三段：让步反驳段

In contrast, it is commonly believed as a fact that 法律收效甚微，因为行为源于个人道德.

Nevertheless, this argument does not hold water.

It should be pointed out that 法律构建了一个框架，使得有害行为变得不便且代价高昂.

That is to say, 法律的力量不在于完美的控制，而在于设定边界，以积极的方式引导文化.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 法律是改变社会行为的有效工具.

尽管它不能保证人人绝对服从，但其在建立规则和影响规范方面的作用，对于一个功能健全的社会是有效且必要的.

参考范文

The controversial topic with respect to law's power never fails to attract public attention. There has been a heated debate on whether laws can change behaviour. As far as I am concerned, I tend to be the advocate for their significant role.

It is evidently reasonable to believe that laws are good at guiding behaviour. This is because they set clear rules and consequences, shaping social norms over time. To illustrate, my observation of smoking bans is convincing. After strict laws were introduced, indoor smoking in my city almost vanished within years. As a result, a legal rule became a social norm, showing how laws can reshape public conduct.

In contrast, it is commonly believed that laws have little effect as actions come from personal morals. Nevertheless, this argument does not hold water for complex social issues. It should be pointed out that laws create a framework making harmful acts less convenient and more costly. That is to say, their power lies not in perfect control, but in setting boundaries that guide culture in a positive way.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that laws are a powerful tool for modifying societal behaviour. While not guaranteeing that everyone will obey perfectly, their role in establishing rules and influencing norms is effective and essential for a functional society.

PTE 写作高频第14题

In developing countries, tourism has disadvantages and advantages.

【变体 1】 Discuss the advantages and disadvantages of tourism in less developed countries.

【变体 2】 The negative impacts of tourism in less developed countries: challenges and sustainable solutions

发展中国家的旅游业的利弊与解决方法

In developing countries, tourism has disadvantages and advantages.

【变体 1】 Discuss the advantages and disadvantages of tourism in less developed countries.

【变体 2】 The negative impacts of tourism in less developed countries: challenges and sustainable solutions

发展中国家的旅游业的利弊与解决方法

对于发展中国家，旅游业就像一把钥匙，用对了（可持续、社区主导），它能打开就业、收入和文化遗产保护的大门；用错了（粗放、外资主导），则可能锁上环境与本地福祉的未来。

第一段：重述背景与题目+表明观点

The controversial topic with respect to 发展中国家的旅游业 never fails to attract public attention.

There has been a debate on whether 其总体影响是积极的.

As far as I am concerned, I tend to recognize that 它同时带来利益与挑战.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that 旅游业能带来重要优势.

This is because 它能创造亟需的就业岗位并为地方经济带来宝贵的外汇收入.

To illustrate this, my personal experience 探访一个山地小镇的经历 is a convincing example.

我观察到由村民经营的徒步向导服务和家庭旅馆创造了稳定收入，并鼓励年轻人留在家乡而非前往城市工作.

As a result, 旅游业不仅提高了生活水平，还通过赋予实用经济价值，帮助保护了当地的语言和生态知识.

第三段：让步反驳段

In contrast, it is commonly believed as a fact that 旅游业常导致环境破坏，并使大部分利润流向大型外国公司.

Nevertheless, this argument does not hold water.

It should be pointed out that 这些问题源于管理不善的大众旅游模式.

That is to say, 解决方案在于推广由社区自主运营的小规模旅游模式，确保利益留在当地，并保护吸引游客的环境与文化.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 旅游业若以可持续方式进行，是发展的有力工具.

其成功与否取决于选择真正惠及当地社区、同时能守护其自然与文化遗产的发展模式.

参考范文

The controversial topic with respect to tourism in developing countries never fails to attract public attention. There has been a debate on its overall impact. As far as I am concerned, I tend to recognise it brings both benefits and challenges, which can be managed wisely.

It is evidently reasonable to believe that tourism brings important advantages. This is because it creates necessary jobs and brings valuable foreign income into local economies. To illustrate this, my personal experience visiting a mountain town is a convincing example. I observed how hiking services and local homestay, run by villagers, generated stable income and encouraged young people to stay in their hometown instead of moving to cities for work. As a result, tourism not only raised living standards but also helped preserve indigenous languages and knowledge of the local ecosystem by giving them practical economic value.

In contrast, it is commonly believed that tourism often leads to environmental damage and allows big foreign companies to take most of the profits. Nevertheless, this argument does not hold water with the right approach. It should be pointed out that these problems come from poorly managed mass tourism. That is to say, the solution is to promote small-scale, tourism that is run by the community itself, which ensures benefits stay local and protects the environment and culture that attract visitors.

In a nutshell, we may conclude that tourism is a powerful tool for development when done sustainably. Its success depends on choosing models that truly benefit local communities while keeping their natural and cultural heritage safe.

260 words

PTE 写作高频第15题

The advanced medical technology expands human's life. Do you think it is a curse or blessing?

先进的医疗科技延长人类的寿命

The advanced medical technology expands human's life. Do you think it is a curse or blessing?

先进的医疗科技延长人类的寿命

先进的医疗技术本质上是人类文明进步的福音，它在有效减轻痛苦、延长健康寿命的同时，也推动着社会制度的完善与资源的公平分配。

The controversial topic with respect to 通过先进医疗技术延长人类寿命 never fails to attract public attention. There has been a heated debate on whether 这最终是福是祸. As far as I am concerned, I tend to be its 坚定支持者.

It is evidently reasonable to believe this is a blessing because 它不仅减轻人类痛苦, 更能通过延长健康且有生产力的年限来增强社会韧性. To illustrate, 诸如疫苗、器官移植和早期疾病检测等突破, 已将致命的疾病转变为可控制的状况, 使人们能够享受更长久、更有意义的人生. As a result, 这正印证了医学的根本宗旨——维护并提升人类的福祉.

In contrast, some argue that 寿命延长可能导致人口过剩、医疗成本上升以及代际关系紧张. Nevertheless, this argument does not hold water. It should be pointed out that 这些挑战源于规划不当, 而非医疗进步本身. That is to say, 通过前瞻性政策、可持续创新和公平的制度安排, 社会完全能够将更长的寿命转化为惠及所有人的发展机遇.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 先进医疗技术始终是深刻的福祉, 它体现了人类对尊严、健康与进步的永恒追求.

参考范文

The controversial topic with respect to the expansion of human life through advanced medical technology never fails to attract public attention. There has been a heated debate on whether this is ultimately a curse or a blessing. As far as I am concerned, I tend to be its advocate.

It is evidently reasonable to believe this is a blessing because it not only reduces human suffering but also strengthens societies by extending years of health and productivity. To illustrate, breakthroughs such as vaccines, organ transplants, and early disease detection have turned deadly diseases into manageable conditions, allowing individuals to enjoy longer, more meaningful lives. As a result, this confirms that the fundamental aim of medicine is to preserve and enhance human well-being.

In contrast, some argue that extending life may lead to overpopulation, increased healthcare costs, and tensions between generations. Nevertheless, this argument does not hold water. It should be pointed out that such challenges come from poor planning, not from medical progress itself. That is to say, with proactive policies, sustainable innovation, and fair systems, societies can turn longer lifespans into opportunities for everyone.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that advanced medical technology remains a deep blessing, as it reflects humanity's pursuit of dignity, health, and progress.

217 words

PTE 写作高频第16题

It is getting harder for children to live and grow in the 21st century than in the past. Do you agree or disagree?

21世纪的孩子更难了吗？

It is getting harder for children to live and grow in the 21st century than in the past. Do you agree or disagree?

21世纪的孩子们更难了吗？

童年从未如此“富裕”，也从未如此艰难——物质丰盈与精神压力的时代悖论，正重塑着成长的本质。

The controversial topic with respect to 21世纪的孩子成长是否比过去更艰难 never fails to attract public attention. There has been a heated debate on whether 当代童年比过去更具挑战性. As far as I am concerned, I tend to agree with this view.

It is evidently reasonable to believe that children face greater pressures today because 他们不仅承受着巨大的学业压力，同时也被数字世界深刻地塑造着. To illustrate this, my personal observation is a convincing example. 如今很多孩子的日程被结构化的活动填满，几乎没有时间进行自由玩耍或自主探索. As a result, 童年正日益变成一场高风险的竞赛，而非自然成长与探索的时光.

In contrast, it is commonly believed as a fact that 如今的孩子们享有更好的物质条件、医疗保健和信息获取途径，因此生活比过去更轻松. Nevertheless, this argument does not hold water. It should be pointed out that 物质上的舒适并不等同于心理上的健康，数字连接往往以加剧焦虑和社会比较为代价. That is to say, 童年挑战的本质已从身体层面的生存问题，转变为心理与情感层面的韧性考验.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 在21世纪成长对孩子来说确实更加复杂和艰难，他们必须应对一个由学业、社交和数字压力交织而成的无形迷宫，这是前几代人从未面对过的.

参考范文

The controversial topic with respect to whether it is harder for children to grow up in the 21st century never fails to attract public attention. There has been a heated debate on whether modern childhood is more challenging than in the past. As far as I am concerned, I tend to agree with this view.

It is evidently reasonable to believe that children face greater pressures today because they face immense academic pressure and are profoundly shaped by the digital world. To illustrate this, my personal observation is a convincing example. It is common for many children to have busy schedules packed with structured activities, leaving little time for free play or unstructured exploration. As a result, childhood is increasingly becoming a high-risk race rather than a time of natural growth and discovery.

In contrast, it is commonly believed as a fact that children today enjoy better material conditions, healthcare, and access to information, making their lives easier than before. Nevertheless, this argument does not hold water. It should be pointed out that material comfort does not equal psychological well-being, and digital connectivity often comes at the cost of increased anxiety and social comparison. That is to say, the fundamental nature of childhood challenges has transformed from physical survival to psychological and emotional resilience.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that growing up in the 21st century is indeed more complex and demanding for children, as they must navigate an invisible maze of academic, social, and digital pressures that previous generations never faced.

PTE 写作高频第17题

Travel to study is over rated, we have brilliant scholars who studied locally. Is travel really required for higher studies?

【变体1】 Travel is necessary or not necessary for a quality education.

【变体2】 Is travelling necessary for a good education? Some smart scholars never leave their hometowns.

出国/异地 求学的好处?

Travel to study is over rated, we have brilliant scholars who studied locally. Is travel really required for higher studies?

【变体1】 Travel is necessary or not necessary for a quality education.

【变体2】 Is travelling necessary for a good education? Some smart scholars never leave their hometowns.

出国/异地 求学的好处？

旅行不是教育的必答题，却是全球化时代的一道高分附加题——它拓宽认知的边界，让知识在跨越山海的过程中真正落地生根。

The controversial topic with respect to 旅行是否为一流教育所必需 never fails to attract public attention. There has been a debate on whether 学生必须离乡求学才能获得顶尖教育. As far as I am concerned, I tend to recognise that 旅行以独特方式促进深度学习, 但并非成功的唯一路径.

It is evidently reasonable for me to believe that 在新环境中学习大有裨益. This is because 它能培养独立精神、深化文化认知, 并开拓获取专业资源的渠道. To illustrate this, 一名建筑专业学生若能在罗马亲临古遗址, 或在东京考察现代地标, 便能直面大师杰作与前沿设计, 获得任何课本都无法替代的直观体验. As a result, 这类实践性学习不仅能锤炼实用技能, 更能塑造更宽广的世界观——这在当今时代尤为重要.

In contrast, it is commonly believed as a fact that 许多卓越学者终身未曾远离故乡, 却依然取得非凡成就, 这似乎证明旅行并非关键. Nevertheless, this argument does not hold water. It should be pointed out that 在当今紧密联结的世界中, 国际协作与竞争的能力日益成为完整教育的重要组成部分, 而沉浸式旅行正是培育此种能力的最有效途径之一.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 旅行虽非天才成长的必要条件, 却是现代优质教育中极具价值的一环.

参考范文

The controversial topic with respect to the necessity of travelling for a good education never fails to attract public attention. There has been a debate on whether students must study away from home to receive a top-tier education. As far as I am concerned, I tend to recognise that travel helps higher learning in special ways, but it is not the only way to succeed.

It is evidently reasonable for me to believe that studying in a new environment is beneficial because it fosters independence, cultural understanding, and access to specialised resources. To illustrate this, an architecture student visiting historical sites in Rome or modern buildings in Tokyo learns directly from masterworks and leading designers, seeing ideas in real life that books alone cannot show. As a result, his hands-on learning builds practical skills and a wider view of the world, which are important today.

In contrast, it is commonly believed as a fact that many brilliant thinkers and academics have made their contributions without ever leaving their hometowns, proving travel is not essential. Nevertheless, this argument does not hold water. It should be pointed out that the ability to collaborate and compete internationally is increasingly part of a complete education in today's interconnected world, and immersive travel is one of the most effective ways to develop this ability.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that travel, while not absolutely necessary for individual genius, is a highly valuable component of a modern, quality education.

PTE 写作高频第18题

Report

Governments and international institution are faced with many global problems. What these problems could be? What solution would you suggest?

The pressing problem: The world's governments and organisations confront a multigrade of issues. What is the most pressing problem facing the inhabitants of our planets and what are the solutions?

全球问题与解决方案

Report 模板:

Introduction:

In the modern society governments and international institutions are faced with many global problems. (重写题目)

In this essay, I am going to investigate these **problems** and then **offer some solutions**. (表明文章意图)

Body1:

It is evidently reasonable for **some** to believe that the problems are various.

The first point with respect to this is that观点

This is because解释

To be more specific ...观点2

That is to say...(support) 补充解释

Body2:

On the basis of the above reasoning, the solutions to this problem should also be many.

Firstly, **the government** has the responsibility and obligation to take some actions.

For example, ... (补充解释)

In addition, **the media** is fully capable of raising the public awareness by revealing the truth and spreading the idea.

Indeed, ... (补充解释)

Conclusion

In a nutshell, I think that the above-mentioned problem can be solved one day in the future. Additionally, I would suggest that it seems highly wise and vital for (somebody) to (do something) (呼吁)

参考范文

In modern society governments and international institutions are faced with many global problems. In this essay, I am going to investigate these problems and then offer some solutions.

It is evidently reasonable for some to believe that the problems are various. The first point with respect to this is that climate change is one of the most serious issues. This is because it affects all countries through extreme weather and rising sea levels. To be more specific, many island nations may disappear completely. That is to say millions of people could become climate refugees in coming decades.

On the basis of the above reasoning, the solutions to this problem should also be many. Firstly, the government has the responsibility and obligation to take some actions. For example, they should invest more in renewable energy like solar and wind power. In addition, the media is fully capable of raising the public awareness by revealing the truth and spreading the idea of environmental protection. Indeed, many documentaries about climate change have already changed people's behavior regarding plastic use and recycling.

In a nutshell, I think that the above-mentioned problem can be solved one day in the future. Additionally, I would suggest that it seems highly wise and vital for every citizen to reduce their carbon footprint in daily life.

PTE 写作高频第19题

Should schools make learning a foreign language compulsory?

学校应该将外语学习设为必修课吗？

Should schools make learning a foreign language compulsory?

学校应该将外语学习设为必修课吗？

将外语学习设为必修课有助于开发学生认知能力、培养全球视野，并能与其它学科相辅相成，是适应未来全球化挑战的重要教育举措。

The controversial topic with respect to educational curriculum never fails to attract public attention. There has been a heated debate on whether 学校是否应将外语学习定为必修课。As far as I am concerned, I tend to be the advocate regarding this issue.

It is evidently reasonable for me to believe that 这对学生的认知与学业发展是有益的。This is because 学习一门外语能够增强批判性思维、提升记忆力并促进跨文化理解。To illustrate this, my personal experience is a convincing example. 从我初中开始学习英语的经历来看，它不仅拓宽了我获取全球信息的渠道，也让我在解决问题时思维更加灵活。As a result, 外语教育为学生提供了在日益互联的世界中所必需的技能。

In contrast, it is commonly believed as a fact that 强制学生学习外语可能会增加学业压力，并挤占其他重要科目的时间。Nevertheless, this argument does not hold water. It should be pointed out that 一个设计合理的语言课程完全可以与其他学科平衡协调，甚至实现跨领域学习的融合。That is to say, 语言学习不仅不是负担，反而能通过培养创造力和思维灵活性来完善学生的整体教育。

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 将外语学习设为学校必修课有利于学生的全面发展，并为他们应对未来的全球挑战做好准备。

参考范文

The controversial topic with respect to educational curriculum never fails to attract public attention. There has been a heated debate on whether schools should make learning a foreign language compulsory. As far as I am concerned, I tend to be the advocate regarding this issue.

It is evidently reasonable for me to believe that this is good for students' cognitive and academic development. This is because learning a foreign language can enhance critical thinking, improve memory, and foster cross-cultural understanding. To illustrate this, my personal experience is a convincing example. When I started learning English in middle school, I found it not only expanded my access to global information but also helped me think more flexibly in problem-solving. As a result, foreign language education equips students with essential skills for an increasingly interconnected world.

In contrast, it is commonly believed as a fact that forcing students to learn a foreign language may increase academic pressure and reduce time for other important subjects. Nevertheless, this argument does not hold water. It should be pointed out that a well-designed language curriculum can be balanced with other disciplines and even integrated into learning across various fields. That is to say, rather than being a burden, language learning can complement students' overall education by promoting creativity and flexibility.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that making foreign language learning compulsory in schools is beneficial for students' holistic development and prepares them for future global challenges.

PTE 写作高频第20题

Government should create a better network of public transport available for everyone or build more roads owning population?

更好公共交通还是更多的路？

What are the advantages of cheaper public transportation? What will it cause to achieve it?

公共交通票价更低有哪些优势？要实现这一点会带来什么影响？

Government should create a better network of public transport available for everyone or build more roads owning population?

更好公共交通还是更多的路？

优先发展公共交通网络比扩建道路更能有效应对城市交通挑战，它既能缓解拥堵、促进环保和社会公平，也能为城市的可持续发展提供长远解决方案。

The controversial topic with respect to 城市规划与发展方向 never fails to attract public attention. There has been a heated debate on whether 政府应优先发展完善的公共交通网络, 还是应该修建更多道路以适应人口增长。As far as I am concerned, I tend to be the 公共交通建设的坚定支持者 regarding this issue.

It is evidently reasonable for me to believe that 建设便捷的公共交通系统能带来显著的长远效益。This is because 一个设计完善的公交体系能有效缓解城市拥堵, 减少污染排放, 并为不同收入群体提供平等的出行选择。To illustrate this, 上海交通系统的成功转型就是有力证明——通过整合电车、巴士和地铁网络, 该市使无车生活既便利又受欢迎。As a result, 这样的投资既能促进社会公平, 又能推动城市的可持续发展。

In contrast, it is commonly believed as a fact that 扩建道路是应对人口增长和汽车数量增加最直接有效的方式。Nevertheless, this argument does not hold water. It should be pointed out that 新建道路往往会刺激更多车辆使用, 最终形成"道路越多, 车辆越多"的恶性循环。That is to say, 这种方法只能提供短期缓解, 却可能加剧环境污染并扩大不同群体在出行机会上的差距。

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 相比盲目扩建道路, 投资建设完善的公共交通网络才是更明智、更具前瞻性的城市发展策略。

参考范文

The controversial topic with respect to urban infrastructure planning never fails to attract public attention. There has been a heated debate on whether governments should invest in enhancing public transportation networks or focus on expanding road systems. As far as I am concerned, I firmly support the development of comprehensive public transport as the better choice.

It is evidently reasonable for me to believe that creating accessible public transportation brings important long-term advantages. This is because a well-designed transport system can significantly reduce urban congestion, lower harmful emissions, and provide affordable travel options for people from all backgrounds. To illustrate this, consider the transformation of Shanghai's transport network, where integrated trams, buses and metro lines have made car-free living both practical and popular among residents. As a result, such investments support fairness in society while helping cities develop in sustainable ways.

In contrast, it is commonly believed that expanding road infrastructure directly solves immediate traffic problems caused by population growth. Nevertheless, this argument does not hold water. It should be pointed out that more road space typically leads to increased use of private cars, creating a cycle where congestion returns. That is to say, this approach not only fails to provide lasting solutions but also makes environmental problems worse and deepens differences in how people can move around cities.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that strategic investment in public transportation represents a wiser and more forward-looking approach to urban mobility challenges.

250 words

The controversial topic with respect to 公共交通票价 never fails to attract public attention. There has been a heated debate on whether 降低票价的好处是否大于其带来的影响。As far as I am concerned, I tend to be the advocate of cheaper public transportation.

It is evidently reasonable for me to believe that 更便宜的公共交通有很多优势。This is because 低票价鼓励人们放弃私家车，选择公交和地铁，从而减少拥堵和污染。To illustrate this, my personal experience is a convincing example. 我所在的城市降低地铁票价后，我的通勤时间明显缩短了。As a result, 更便宜的公共交通提升了出行效率和环境质量。

In contrast, it is commonly believed as a fact that 要实现低票价，政府需要大量补贴，这会导致税收上升或削减教育、医疗等其他公共服务。Nevertheless, this argument does not hold water. It should be pointed out that 实现低票价还会带来积极的连锁反应：更多乘客意味着公交公司收入增加，可以改善服务；同时私家车减少，政府节省了道路维护和污染治理的开支。That is to say, 实现低票价虽然前期需要财政投入，但它会促使资源重新分配，并带来长期的财政节约和社会效益。

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 更便宜的公共交通在减少拥堵和污染方面优势明显，而要实现它，虽然会导致政府短期财政压力增加或需要调整预算，但长期来看，经济与社会回报足以抵消这些影响，使政策值得推行。

The controversial topic with respect to public transportation pricing never fails to attract public attention. There has been a heated debate on whether the benefits of cheaper fares outweigh the consequences. As far as I am concerned, I tend to be the advocate of cheaper public transportation.

It is evidently reasonable for me to believe that cheaper public transportation offers clear advantages. This is because lower fares encourage more people to use buses and subways instead of private cars, reducing traffic congestion and air pollution. To illustrate this, my personal experience is a convincing example. After my city lowered subway fares, my commuting time became much shorter. As a result, cheaper public transportation improves urban mobility and environmental quality.

In contrast, it is commonly believed as a fact that achieving cheaper fares requires large government subsidies, which would cause higher taxes or reduced funding for education and healthcare. Nevertheless, this argument does not hold water. It should be pointed out that achieving cheaper fares would also cause positive ripple effects: more passengers mean higher revenue for transit companies, allowing service improvements; meanwhile, fewer cars reduce road maintenance and pollution control costs for the government. That is to say, achieving cheaper fares would cause a reallocation of public resources, but the long-term savings and social benefits can offset the initial financial pressure.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that cheaper public transportation brings clear advantages in reducing congestion and pollution. While achieving it would cause short-term fiscal pressure or budget adjustments, the economic and social returns make it a worthwhile policy.

You need to study climate change. Which aspect of climate change will you choose and why ?
气候变化会选择哪个方面学习？

Discussions about climate change always generate much excitement. In this essay, I will explain why I choose to research climate change's impacts on human living environments.

It is evidently reasonable to believe that understanding how climate change affects human living environments allows us to develop more effective measures to safeguard human life and safety. The first point regarding this is that research helps us forecast extreme weather events, such as hurricanes and floods, so we can prepare and reduce damage. Secondly, understanding climate risks enables us to protect people from threats like heatwaves, food shortages, and diseases.

Additionally, another obvious reason is that by studying climate change's effects, we can better protect our planet and find solutions to these problems. To be more specific, studying climate change helps us save animals and plants from extinction caused by habitat loss. Due to global warming, many species of plants and animals are struggling to survive and face the risk of extinction. That is to say, such research contributes to developing practical solutions. Scientists are already working on clean energy, sustainable farming, and better policies to combat climate change.

In a nutshell, studying climate change is like giving Earth a health checkup, only by understanding the problems can we cure the disease. Every small action contributes to protecting our home.

PTE 写作高频第22题

The formal written examination can be a valid method to assess students' learning. To what extent do you agree or disagree?

Do you agree that education system that assesses the student's learning by written

exam is correct? Please discuss the significance of formal written assessments in today's world to evaluate children's performance

正式考试评估学生学习的利弊

The formal written examination can be a valid method to assess students' learning. To what extent do you agree or disagree?

正式考试评估学生学习的利弊

正式笔试作为一种公平、标准化的评估方式，在衡量学生知识掌握与思维训练方面具有不可替代的重要价值，且其现代形式已涵盖批判性思维等关键能力，但仍需与其他评价方式结合以实现更全面的评估。

第一段：重述背景与题目 + 表明观点

The controversial topic with respect to 教育评估 never fails to attract public attention. There has been a heated debate on whether 一个依赖正式笔试来评估学习的体系是否正确. As far as I am concerned, I tend to be the advocate regarding 这类考试在当今世界扮演重要角色.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that 笔试是一种有效且必要的评估工具. This is because 它们提供了一个标准化、客观且公平的方法，来评估学生对核心课程的理解以及他们在压力下应用知识的能力. To illustrate this, my personal experience as a student is a convincing example; 备考时培养的技能，比如总结归纳和构建论点的能力，对我的职业生涯有直接帮助。As a result, 这些评估为学业成就和智力训练提供了可靠的基准.

第三段：让步反驳段（反方观点 + 观点2/反驳）

In contrast, it is commonly believed as a fact that 这类考试过分强调记忆而忽视实践技能. Nevertheless, this argument does not hold water when considering modern assessment design. It should be pointed out that 当代考试越来越多地通过论述题和复杂问题解决来测试批判性思维. That is to say, 它们能有效地评估结构化的推理和清晰的沟通能力，而这些能力对于在当今信息化社会取得成功至关重要.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 正式的笔试评估仍然是一种正确且重要的方法，能够公平且严格地评估学生的表现. However, 当与其他评估形式结合使用时，它们才是最有效的，这样才能全面了解学生的能力.

参考范文

The controversial topic with respect to educational assessment never fails to attract public attention. There has been a heated debate on whether a system relying on formal written exams to assess learning is correct. As far as I am concerned, I tend to be the advocate regarding the significant role of such examinations in today's world.

It is evidently reasonable for me to believe that written exams are a valid and essential assessment tool. This is because they provide a standardised, objective, and fair method to evaluate students' comprehension of core curriculum and their ability to apply knowledge under pressure. To illustrate this, my personal experience as a student is a convincing example; the skills I learn for exams, like summarising and building arguments, are directly useful in my future career. As a result, these assessments offer a reliable benchmark for academic achievement and intellectual discipline.

In contrast, it is commonly believed as a fact that such exams overemphasise memorisation and neglect practical skills. Nevertheless, this argument does not hold water when considering modern assessment design. It should be pointed out that contemporary exams increasingly test critical thinking through essay questions and complex problem-solving. That is to say, they effectively evaluate the structured reasoning and clear communication skills that are crucial for success in today's information-based society.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that formal written assessments remain a correct and significant method to evaluate children's performance fairly and rigorously. However, they are most effective when combined with other evaluative forms to provide a comprehensive view of a student's abilities.

PTE 写作高频第23题

Age restrictions can be seen everywhere. It is believed that people should not do things until they reach the right age, such as marriage, and driving. Select one activity and state the minimum age that you think. Support with your own experiences.

是否支持例如结婚，开车关于年龄限制的想法

Age restrictions can be seen everywhere. It is believed that people should not do things until they reach the right age, such as marriage, and driving. Select one activity and state the minimum age that you think. Support with your own experiences.

是否支持例如结婚，开车关于年龄限制的想法

将法定驾驶年龄维持在18岁是合理的，因为它与青少年后期判断力和责任感的形成相匹配，能更好地在个人自由与公共安全之间取得平衡。

The controversial topic with respect to 驾驶最低年龄要求 never fails to attract public attention. There has been a heated debate on whether 应该降低法定驾驶年龄. As far as I am concerned, I tend to be the opponent regarding this proposal.

It is evidently reasonable for me to believe that 将最低驾驶年龄设为18岁是有益的. This is because 安全驾驶车辆不仅需要操作技能, 还需要通常在青少年后期形成的成熟判断力和责任感. To illustrate this, my personal experience is a convincing example. 在观察我家族中的新司机时, 我注意到那些年龄稍长者, 在处理复杂交通状况时比年轻的同龄人更有耐心和远见. As a result, 这项更高的年龄要求有助于从一开始就培养更安全的驾驶习惯.

In contrast, it is commonly believed as a fact that 较低的驾驶年龄能为青少年提供必要的独立性和便利. Nevertheless, this argument does not hold water. It should be pointed out that 个人便利的好处必须与确保所有道路使用者公共安全的基本要求仔细权衡. That is to say, 授予驾驶这样的重大责任, 应当与个人更有可能持续保持谨慎的人生阶段相匹配.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 18岁仍然是一个经过深思熟虑的最低驾驶年龄, 因为它能更好地平衡个人自由与道路上所有人共同的安全需求.

参考范文

The controversial topic with respect to minimum age requirements for driving never fails to attract public attention. There has been a heated debate on whether the legal driving age should be lowered. As far as I am concerned, I tend to be the opponent regarding this proposal.

It is evidently reasonable for me to believe that setting the minimum driving age at eighteen is beneficial. This is because operating a vehicle safely requires not just physical skill, but a mature sense of judgment and responsibility that usually develops by a person's later teenage years. To illustrate this, my personal experience is a convincing example. While observing new drivers in my family, I noticed that those who were older approached complex traffic situations with more patience and forward-thinking than their younger peers. As a result, this higher age requirement helps cultivate safer driving habits from the start.

In contrast, it is commonly believed as a fact that a lower driving age provides essential independence and convenience for teenagers. Nevertheless, this argument does not hold water. It should be pointed out that the benefit of personal convenience must be carefully weighed against the fundamental requirement of ensuring public safety for all road users. That is to say, granting a major responsibility like driving should match a stage of life where individuals are more likely to exercise consistent caution.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that eighteen remains a well-considered minimum age for driving, as it better balances personal freedom with the shared need for safety on the roads.

PTE 写作高频第24题

Is it fair for universities to deduct students' marks when their assignments are overdue? How to solve this problem?

Is it fair for universities to deduct students' marks when their assignments are overdue? How to solve this problem?

学生晚交作业可否是否公平？如何解决？

大学对逾期作业扣分是公平且必要的，因为它能维护学术标准并培养学生的时间观念；但真正的公平需要在严格执行规则的同时，为有实际困难的学生提供灵活的申请渠道和辅助支持。

The controversial topic with respect to 大学评分政策 never fails to attract public attention. There has been a heated debate on whether 大学因作业逾期而扣分是否公平。就我而言，我倾向于支持这种做法。

It is evidently reasonable for me to believe that 对逾期提交的作业进行扣分是一项公平且必要的政策。 This is because 它维护了学术诚信，确保了按时完成作业学生的公平，并教授了关键的时间管理技能。 To illustrate this, 明确的逾期扣分规定在我大学一年级时教会了我如何进行任务优先级排序，这项技能在我后来的实习中被证明极其有用。 As a result, 这类政策有助于营造一个负责任的学习环境。

In contrast, it is commonly believed as a fact that 严格的截止日期会不公平地惩罚那些面临实际困难的学生。 Nevertheless, this argument does not hold water when 理解性措施与规则一同实施时。 It should be pointed out that 大学可以将标准处罚与辅助系统结合起来。 That is to say, 为面临重大困难的学生建立清晰、保密的延期申请渠道，可以在坚持原则的同时提供必要的灵活性。

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that mark deduction for lateness is fundamentally fair as a standard rule. However, 只有当它与有益的灵活性措施相结合时，其公平性才能充分体现，从而在维持学术标准的同时实现真正的公平。

参考范文

The controversial topic with respect to university grading policies never fails to attract public attention. There has been a heated debate on whether it is fair for universities to deduct marks for overdue assignments. As far as I am concerned, I tend to be the advocate regarding this practice.

It is evidently reasonable for me to believe that applying mark deductions for late submissions is a fair and necessary policy. This is because it protects academic integrity, ensures fairness for students who meet deadlines, and teaches crucial time management skills. To illustrate this, my personal experience is a convincing example: clear late penalties in my first year taught me effective task prioritisation, a skill extremely useful in my later internships. As a result, such policies help create a responsible learning environment.

In contrast, it is commonly believed that strict deadlines unfairly penalise students facing genuine difficulties. Nevertheless, this argument does not hold water when understanding measures are implemented together with the rule. It should be pointed out that universities can pair standard penalties with assistance systems. That is to say, establishing clear, confidential extension channels for students with significant challenges balances discipline with necessary flexibility.

In a nutshell, mark deduction for lateness is fundamentally fair as a standard rule. Its fairness is fully realised when combined with helpful flexibility, maintaining academic standards while achieving true equity.

PTE 写作高频第25题

Large shopping malls are replacing small shops. What is your opinion about this? Discuss with appropriate examples.

大商场与小店铺

Large shopping malls are replacing small shops. What is your opinion about this? Discuss with appropriate examples.

大商场与小店铺

大型购物中心取代小商店是零售业发展的积极趋势，它在提供高效便捷消费体验的同时，也能推动小商业创新转型，最终实现二者互补共存、丰富市场生态的良性发展。

第一段：重述背景与题目+表明观点

The controversial topic with respect to 大型商场取代小商店 never fails to attract public attention.
There has been a heated debate on whether 这一趋势整体上是利大于弊的.
As far as I am concerned, I tend to be the advocate regarding this issue.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that this is beneficial.
This is because 大商场为消费者提供了极高的便利性、丰富的选择和舒适的环境.
To illustrate this, my personal experience is a convincing example.
As a result, 商场非常适应现代都市人快节奏、注重体验的生活方式.

第三段：让步反驳段（反方观点+观点2/反驳）

In contrast, it is commonly believed as a fact that 这一趋势会破坏社区独特氛围并威胁小商户生存.
Nevertheless, this argument does not hold water.
It should be pointed out that 小商店可以通过提供个性化服务和特色产品来与大商场共存.
That is to say, 它们并非被简单淘汰, 而是在压力下创新并找到差异化市场定位, 最终为消费者提供更多元的选择.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 大型购物中心的兴起是零售业的积极发展, 前提是城市规划能营造一个让大商场和灵活的小商业都能蓬勃发展的多元生

参考范文

The controversial topic about the replacement of small shops by large shopping malls always attracts public attention. There has been a heated debate on whether this trend is ultimately beneficial. As far as I am concerned, I tend to support this change.

It is evidently reasonable for me to believe that this development brings significant benefits. This is because large malls offer great convenience, variety, and a comfortable environment for consumers. To illustrate this, my personal experience is a convincing example. A visit to a mall in Beijing allows me to shop for diverse brands, enjoy a meal, watch a film, and even attend cultural events all under one roof, saving considerable time and effort. As a result, malls suit the fast-paced, modern lifestyle of urban dwellers very well.

In contrast, it is commonly believed that this trend damages the unique feel of a local area and threatens local businesses. Nevertheless, this argument does not hold water. It should be pointed out that small shops can coexist by offering unique, personalised services or special products that malls cannot copy. That is to say, rather than being forced out, they are pushed to change and find their own special market position, which ends up giving people more choice.

In a nutshell, due to the mentioned reasons, we may safely conclude that the rise of shopping malls is a positive change, as long as planning helps create an environment where both malls and flexible small businesses can succeed together.

249 words

PTE 写作高频第26题

Write about Climate change? Who is responsible whether Government or industries? Why?
气候变化谁的责任？政府还是企业？

Write about Climate change? Who is responsible whether Government or industries? Why?
气候变化谁的责任？政府还是企业？

解决气候变化需要企业与政府的共同行动，但政府必须承担通过制定法规和政策来领导和强制系统性变革的主要责任。

第一段：重述背景与题目+表明观点

The controversial topic with respect to 谁该对气候变化负责 never fails to attract public attention.

There has been a heated debate on whether 政府还是企业应承担主要责任.

As far as I am concerned, I tend to be the advocate for 共同承担责任, 但政府负有最终责任.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that this is 至关重要的.

This is because 只有政府能够制定法律和政策, 迫使所有行业共同减少污染.

To illustrate this, my personal observation of 碳税政策 is a convincing example.

As a result, 政府行动创造了公平的竞争环境并推动大规模变革.

第三段：让步反驳段（反方观点+观点2/反驳）

In contrast, it is commonly believed as a fact that 企业是主要原因并应自行解决问题.

Nevertheless, this argument does not hold water.

It should be pointed out that 若无严格的政府法规, 许多公司将选择更便宜但污染严重的方式以击败竞争对手.

That is to say, 期待企业自愿行动往往不切实际, 这使得强有力的政府监管对于推动必要转型至关重要.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 虽然企业必须改进其运营方式, 但解决气候变化的主要责任在于政府制定并执行可持续发展所需的规则.

参考范文

The controversial topic with respect to responsibility for climate change never fails to attract public attention. There has been a heated debate on whether governments or industries bear primary responsibility. As far as I am concerned, I tend to be the advocate for shared responsibility, with governments holding the ultimate duty.

It is evidently reasonable for me to believe that this is essential when governments take the lead. This is because only governments can create the laws and policies that force all industries to reduce pollution together. To illustrate this, my personal observation of carbon tax policies is a convincing example. Countries that put a price on carbon have seen companies innovate to become cleaner to save money. As a result, government action creates a fair playing field and drives large-scale change.

In contrast, it is commonly believed as a fact that industries are the main cause and should fix the problem themselves. Nevertheless, this argument does not hold water. It should be pointed out that without strict government rules, many companies will choose cheaper, polluting options to beat their competitors. That is to say, expecting voluntary corporate action is often unrealistic, making strong government regulation essential to force the needed transformation.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that while industries must clean up their operations, the primary responsibility for solving climate change lies with governments to set and enforce the necessary rules for a sustainable future.

PTE 写作高频第27题

Experience is more effective and useful than books and formal education. What is your opinion?

Some people think that life experience is more important than the formal education provided in schools and universities. How far do you agree with this statement, and provide examples?

Whether experiential learning (learning by doing) can work well in formal education. Do you agree or disagree?

Life experience is the best teacher. Do you agree or disagree?

书本知识与实践能力的解析

Experience is more effective and useful than books and formal education. What is your opinion?

Some people think that life experience is more important than the formal education provided in schools and universities. How far do you agree with this statement, and provide examples?

Whether experiential learning (learning by doing) can work well in formal education. Do you agree or disagree?

书本知识与实践能力的解析

正规教育与实践经验相辅相成，前者提供系统性的知识框架，后者赋予灵活应用的能力，只有将二者有机结合才能实现最有效的学习和个人发展。

第一段：重述背景与题目+表明观点

The controversial topic with respect to 实践经验与正规教育的价值比较 never fails to attract public attention. There has been a heated debate on whether 实际生活技能比学术学习更重要. As far as I am concerned, I tend to be the advocate 支持二者结合而非对立.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that 实践经验是不可或缺的. This is because 它能培养在课堂中难以完全掌握的灵活性、解决问题能力和人际交往技巧. To illustrate this, 许多工匠和企业创始人的成功经历 is a convincing example. As a result, 经验提供了独特而实用的智慧.

第三段：让步反驳段

In contrast, it is commonly believed as a fact that 正规教育大多是理论性的且不太实用. Nevertheless, this argument does not hold water. It should be pointed out that 教育构建了知识、逻辑和进入工程学或法学等复杂领域所必需的基础. That is to say, 它为理解提供了必要的框架，有效的经验可以在此基础上建立和解释.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 最有效的途径是结合两者：正规教育提供基础的地图，而经验则提供导航的旅程，彼此使对方更有价值和完整.

参考范文

The controversial topic with respect to the value of experience versus formal education never fails to attract public attention. There has been a heated debate on whether practical life skills outweigh academic learning. As far as I am concerned, I tend to be the advocate for their integration, not opposition.

It is evidently reasonable for me to believe that hands-on experience is essential. This is because it cultivates flexibility, problem-solving, and interpersonal skills rarely fully developed in classrooms. To illustrate this, the success of many craftsmen and business founders, who often learn through traineeships and direct practice, is a convincing example. As a result, experience provides a unique, practical wisdom.

In contrast, it is commonly believed as a fact that formal education is largely theoretical and less applicable. Nevertheless, this argument does not hold water. It should be pointed out that education builds the essential foundation of knowledge, logic, and access to complex fields like engineering or law. That is to say, it provides the necessary framework for understanding, on which effective experience can then be built and interpreted.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that the most effective path combines both: formal education provides the foundational map, while experience offers the journey of navigation, each making the other more valuable and complete.

PTE 写作高频第28题

Study needs time, peace and comfort, whereas employment needs the same thing. Someone says it is impossible to combine those two because one distracts one another. Do you think this is realistic in our life today? To what extent do you agree with it? Support your opinion with example.

同时工作学习的可能性

Study needs time, peace and comfort, whereas employment needs the same thing. Someone says it is impossible to combine those two because one distracts one another. Do you think this is realistic in our life today? To what extent do you agree with it? Support your opinion with example.

同时工作学习的可能性

兼顾学业与工作虽具挑战，但通过灵活的时间管理、制度支持和个人规划，在现代社会中不仅是可行的，而且正成为越来越普遍的个人发展路径。

第一段：重述背景与题目+表明观点

The controversial topic with respect to 同时进行全日制学习与工作 never fails to attract public attention. There has been a heated debate on whether 学习与工作必然会相互干扰. As far as I am concerned, I tend to be the opponent of the view that 二者完全无法兼容.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that 在妥善规划下兼顾两者是可行的. This is because 现代灵活的学习方式和时间管理工具能帮助整合这两项活动. To illustrate this, 越来越多攻读在线学位并同时从事兼职工作的成功案例 is a convincing example. As a result, 许多人能够有效划分时间和精力来履行双重角色.

第三段：让步反驳段

In contrast, it is commonly believed as a fact that 工作与学习的需求不可避免地会产生冲突，导致精力耗尽或某一方表现不佳. Nevertheless, this argument does not hold water when we consider structured support systems. It should be pointed out that 许多大学现在提供夜间课程、录播讲座以及专为职场人士设计的公司资助教育计划. That is to say, 机构对此需求的正式认可已为二者结合创造了现实途径.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 尽管兼顾学业和工作需要高度的自律和支持体系，但这在当今不断变化的教育与职业环境中不仅是现实的，而且正变得越来越普遍.

参考范文

The controversial topic with respect to combining full-time study with employment never fails to attract public attention. There has been a heated debate on whether one necessarily distracts from the other. As far as I am concerned, I tend to be the opponent of the view that they are entirely incompatible.

It is evidently reasonable for me to believe that balancing both is challenging but achievable with proper strategy. This is because modern flexible learning options and time-management tools can help integrate the two activities. To illustrate this, the growing number of successful online degree students who also hold part-time jobs is a convincing example. As a result, many individuals can effectively divide their time and mental energy to fulfill both roles.

In contrast, it is commonly believed as a fact that the demands of work and study unavoidably conflict, leading to burnout or poor performance in one area. Nevertheless, this argument does not hold water when we consider structured support systems. It should be pointed out that many universities now offer evening classes, recorded lectures, and company-funded education plans specifically designed for working professionals. That is to say, the formal acceptance of this need by organizations has created practical ways for combination.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that while combining study and employment requires significant discipline and support, it is not only realistic but increasingly common in today's changing educational and professional environment.

PTE 写作高频第29题

Technology has made the world a better place to live. To what extent do you agree with this statement?

科技是否让世界变得更好

Technology has made the world a better place to live. To what extent do you agree with this statement?

科技是否让世界变得更好

科技整体上推动了社会进步与生活改善，但其带来的益处需要通过审慎的伦理规划、包容性政策和可持续治理来引导，才能实现更为公平、普惠的人类发展。

第一段：重述背景与题目+表明观点

The controversial topic with respect to 科技是否让世界变得更美好 never fails to attract public attention.

There has been a heated debate on whether 技术进步最终改善了人类生活.

As far as I am concerned, I tend to be the advocate for a 持平衡视角, 既肯定其带来的深远益处, 也承认其伴随的重大挑战.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that 科技带来了深刻的改善.

This is because 它极大促进了沟通、医疗和信息获取.

To illustrate this, 互联网和疫苗的发展 are convincing examples—connecting people globally and eradicating diseases like smallpox.

As a result, 技术前所未有地延长了预期寿命、减少了贫困并推动了教育普及.

第三段：让步反驳段

In contrast, it is commonly believed as a fact that 科技引发了隐私侵蚀、就业替代和环境危害等新问题.

Nevertheless, this argument does not hold water if we consider 人类的主观能动性与伦理创新.

It should be pointed out that 这些问题并非源于技术本身, 而源于社会如何选择发展和监管技术.

That is to say, 通过负责任的治理和包容性设计, 技术可以被引导以缓解其自身的负面影响.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 科技整体上让世界变得更美好, 但其益处并非自动实现或均匀分布。关键在于确保技术进步由智慧、公平和对公共福祉的承诺所引导, 而非仅仅受利润或便利驱动.

The controversial topic with respect to whether technology has made the world a better place never fails to attract public attention. There has been a heated debate on whether technological progress ultimately improves human life. As far as I am concerned, I tend to be the advocate for a balanced perspective, recognizing both its meaningful benefits and clear challenges.

It is evidently reasonable for me to believe that technology has brought important improvements. This is because it has greatly enhanced communication, healthcare, and access to information. To illustrate this, the development of the internet and vaccines are convincing examples; connecting people globally and eliminating diseases like smallpox. As a result, technology has extended life expectancy, reduced poverty, and empowered education to an extent never seen before.

In contrast, it is commonly believed as a fact that technology has created new problems such as loss of privacy, job loss, and environmental harm. Nevertheless, this argument does not hold water if we consider human choice and good innovation. It should be pointed out that these issues come not from technology itself, but from how societies decide to develop and control it. That is to say, with careful management and thoughtful design, technology can be directed to lessen its own negative effects.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that technology has made the world better overall, but its benefits are not automatic or evenly shared. The key is ensuring that technological progress is guided by fairness and a focus on the good of all, rather than just profit or ease.

PTE 写作高频第30题

Design of buildings have positive or negative impact on people's life and work?

关于建筑设计对人们的生活和工作是产生积极还是消极影响

Design of buildings have positive or negative impact on people's life and work?

关于建筑设计对人们的生活和工作是产生积极还是消极影响

建筑设计深刻影响人们的生活与工作质量，优秀的设计通过改善环境、健康与效率带来积极效益，而其价值最终取决于是否以人为本、功能优先，而非停留于表面形式。

第一段：重述背景与题目+表明观点

The controversial topic with respect to 建筑设计 never fails to attract public attention.

There has been a heated debate on whether 建筑设计对人们的生活和工作产生积极还是消极影响.

As far as I am concerned, I tend to be the advocate that 用心的设计具有积极影响, 尽管糟糕的设计可能有害.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that 设计良好的建筑能显著提升日常生活质量.

This is because 自然光、高效的空间规划和绿化区域等要素能直接改善情绪、健康和工作效率.

To illustrate this, 现代工作场所广泛采用的共享办公室和大窗户 is a convincing example.

As a result, 在此类环境中工作的员工通常表现出更高的满意度和更好的专注力, 这证明了设计带来的实际益处.

第三段：让步反驳段

In contrast, it is commonly believed as a fact that 设计仅关乎美观, 并不影响实际效果.

Nevertheless, this argument does not hold water when examining the evidence of poorly planned spaces.

It should be pointed out that 缺乏通风、自然光或安全设施的建筑物可能导致健康问题、团队士气低落和生产力下降.

That is to say, 设计并非表面问题, 而是影响功能福祉的关键因素.

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 建筑设计对人们的生活和工作具有显著的积极影响力, 前提是设计应优先考虑人的需求、可持续性和功能性, 而非仅仅注重外观.

The controversial topic with respect to building design never fails to attract public attention. There has been a heated debate on whether building design positively or negatively impacts people's lives and work. As far as I am concerned, I tend to be the advocate that thoughtful design has positive effects, though poor design can be detrimental.

It is evidently reasonable for me to believe that well-designed buildings significantly enhance daily life. This is because elements like natural light, efficient space planning, and green areas directly improve mood, health, and efficiency. To illustrate this, the widespread use of shared offices and large windows in modern workplaces is a convincing example. As a result, employees in such environments often report higher satisfaction and better focus, demonstrating design's real benefits.

In contrast, it is commonly believed as a fact that design is only about looks and does not affect practical outcomes. Nevertheless, this argument does not hold water when examining the evidence of poorly planned spaces. It should be pointed out that buildings lacking ventilation, natural light, or safety features can lead to health issues, low team spirit, and reduced productivity. That is to say, design is not a surface-level concern but a key factor in functional well-being.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that building design holds substantial power to influence people's lives and work positively, provided it prioritizes human needs, sustainability, and functionality over mere appearance.

PTE 写作高频第31题

Parents should be held legally responsible for children's acts. What is your opinion? Support it with personal examples.

家长是否应该为孩子的行为负责？

Parents should be held legally responsible for children's acts. What is your opinion? Support it with personal examples.

家长是否应该为孩子的行为负责？

父母应在法律上为其子女的严重不当行为承担有限度的责任，这主要适用于监护明显失职并造成实质危害的情形，其根本目的在于通过合理追责促进家庭教育的尽责履行，而非实施普遍性惩罚。

第一段：重述背景与观点

The controversial topic with respect to 父母对子女行为的法律责任 never fails to attract public attention.

There has been a heated debate on whether 这种做法是否公平或有效.

As far as I am concerned, I tend to support 有限度的法律责任, 主要适用于明显监护失职或造成严重伤害的情况.

第二段：观点论述

It is evidently reasonable for me to believe that 父母应承担一定责任.

This is because 他们通过引导和监管塑造孩子的行为.

To illustrate this, 若儿童屡次破坏公共财产, 让父母介入处理行为并安排赔偿 is a practical example.

As a result, 这更侧重于教育和社区责任, 而非单纯归咎.

第三段：让步反驳

In contrast, it is commonly believed as a fact that 儿童拥有自由意志, 父母无法控制其所有行为.

Nevertheless, this argument does not hold water when considering 极端监护失职的情况.

It should be pointed out that 若因父母疏于监管导致严重伤害, 法律追责就成为保障公共安全的必要手段.

That is to say, 法律应区分普通的儿童顽皮行为与父母失职直接导致伤害的情形.

第四段：总结

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 父母法律责任应有明确范围, 旨在通过促进尽责教养来预防伤害, 而非广泛惩罚家庭.

The controversial topic with respect to parental legal responsibility for children's acts never fails to attract public attention. There has been a heated debate on whether this is fair or effective. As far as I am concerned, I tend to support limited legal responsibility, applied mainly in cases of clear neglect or serious harm.

It is evidently reasonable for me to believe that parents should bear some obligation. This is because they shape children's behavior through guidance and supervision. To illustrate this, if a child frequently damages public property, involving parents to address the conduct and arrange compensation is a practical example. this focuses on education and community responsibility over blame.

In contrast, it is commonly believed as a fact that children have free will and parents cannot control all their actions. Nevertheless, this argument does not hold water when considering extreme cases of parental neglect. It should be pointed out that if a child causes serious harm and the parent failed to exercise reasonable care, legal accountability becomes a necessary tool for public safety. That is to say, the law should distinguish between ordinary childhood mischief and situations where parental failure directly contributes to harm.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that parental legal responsibility should be specific and aimed at encouraging responsible parenting to prevent harm, rather than broadly punishing families.

PTE 写作高频第32题

Which one is better, Textbook library or new digital material in university.

With the increase of digital media available online, the role of the library has become obsolete. Universities should only procure digital materials rather than constantly textbooks. Discuss both the advantages and disadvantages of this position and give your own point of view.

大学里，教材图书馆和新数字资源哪一种更好？

第一段：重述背景与题目+表明观点

The controversial topic with respect to 大学学习资源的选择 never fails to attract public attention. There has been a heated debate on whether 传统图书馆教材更好，还是新型数字材料更优。As far as I am concerned, I tend to be the advocate of digital materials regarding this issue.

第二段：观点1论述与解释

It is evidently reasonable for me to believe that 数字材料更好。This is because 数字材料能提供更高效、更灵活的学习方式，学生可以随时随地获取最新信息。To illustrate this, my personal experience is a convincing example. 上学期我通过电子数据库查阅了多篇最新论文，顺利完成课题，而纸质书籍更新很慢，很多信息已经过时。As a result, 数字材料大大提升了大学生的学习效率和知识获取速度。

第三段：让步反驳段（反方观点+观点2/反驳）

In contrast, it is commonly believed as a fact that 传统图书馆教材更加可靠，有助于深度阅读和专注学习，避免电子设备的干扰。Nevertheless, this argument does not hold water. It should be pointed out that 数字材料同样可以通过护眼模式、离线阅读和专注软件来减少干扰，而且图书馆教材数量有限，多人争抢一本，反而浪费时间。That is to say, 数字材料在便利性和可获取性上远超纸质书，而专注力问题可以通过学习方法和时间管理来解决，并非数字材料本身的缺陷。

第四段：总结段落

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that 在大学中，新型数字材料比传统图书馆教材更值得推广。

The controversial topic with respect to university learning resources never fails to attract public attention. There has been a heated debate on whether traditional textbook libraries are better or new digital materials are superior. As far as I am concerned, I tend to be the advocate of digital materials regarding this issue.

It is evidently reasonable for me to believe that digital materials are better. This is because digital materials offer a more efficient and flexible way of learning, allowing students to access the latest information anytime and anywhere. To illustrate this, my personal experience is a convincing example. Last semester, I completed a research project successfully by using electronic databases to access recent papers, while printed books updated slowly and much of the information was already outdated. As a result, digital materials greatly improve university students' learning efficiency and speed of knowledge acquisition.

In contrast, it is commonly believed as a fact that traditional textbook libraries are more reliable, promoting deep reading and concentration by avoiding distractions from electronic devices. Nevertheless, this argument does not hold water. It should be pointed out that digital materials can also reduce distractions through eye-protection modes, offline reading, and focus apps; moreover, library textbooks are limited in quantity, causing students to compete for the same book, which wastes time. That is to say, digital materials are far superior in convenience and accessibility, while the issue of concentration can be solved by learning methods and self-management, rather than being an inherent flaw of digital materials.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that in universities, new digital materials are more worthy of promotion than traditional textbook libraries.

280Words

PTE 写作高频第33题

When people need to complain about a product or a service, some prefer to complain in writing while others prefer to complain in person. Which way do you prefer?

The controversial topic with respect to _____ never fails to attract public attention. (背景：对不满意的产品或服务进行投诉)
There has been a heated debate on whether _____. (题目：人们更倾向于书面投诉还是当面投诉)
As far as I am concerned, I tend to be the advocate regarding this issue. (倾向于书面投诉)
It is evidently reasonable for me to believe that this is good (观点1：书面投诉是更好的方式)
This is because _____. (解释：书面投诉能清晰记录细节，作为日后维权的有力证据)
To illustrate this, my personal experience is a convincing example. (我曾就一件有缺陷的商品提交书面投诉，详细的书面内容让商家很快承认了责任)
As a result, _____. (总结：我高效解决了问题，没有产生不必要的纠纷)
In contrast, it is commonly believed as a fact that _____ (反方观点：当面投诉能直接沟通并获得即时反馈)
Nevertheless, this argument does not hold water.
It should be pointed out that _____ (观点2/反驳：当面投诉可能引发情绪冲突，且无法留下有效证据)
That is to say, _____. (解释2：人们可能会冲动争吵，无法为后续协商保留有用的证据)
In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that _____. (立场：书面投诉比当面投诉更可靠、更实用)

The controversial topic with respect to complaining about unsatisfactory products or services never fails to attract public attention. There has been a heated debate on whether people prefer to make complaints in writing or in person. As far as I am concerned, I tend to be the advocate regarding this issue and prefer written complaints.

It is evidently reasonable for me to believe that this is a better way to complain. This is because written complaints can keep clear records and serve as solid evidence for future rights protection. To illustrate this, my personal experience is a convincing example. I once filed a written complaint about a defective commodity, and the detailed written content made the merchant admit their responsibility quickly. As a result, I solved the problem efficiently without unnecessary disputes.

In contrast, it is commonly believed as a fact that complaining in person can communicate directly and get immediate feedback. Nevertheless, this argument does not hold water. It should be pointed out that face-to-face complaints may cause emotional conflicts and leave no valid proof. That is to say, people may argue impulsively and fail to keep useful evidence for further negotiation.

In a nutshell, due to the mentioned reasons, we may safely reach the conclusion that making complaints in writing is more reliable and practical than complaining in person.
